E-Bulletin for the month of July, 2021

KHALSA MODEL SENIOR SECONDARY SCHOOL (KINDERGARTEN SECTION)

Digital wellbeing and COVID-19

Digital technology in its various forms is a significant component of our working environment and lifestyles. However, there is a broad difference between using digital technologies in everyday life and employing them in formal education.

The coronavirus pandemic has dramatically changed students' day-to-day lives. With most teaching moved online, assessments cancelled or delayed, and further education has changed in previously-unthought-of ways.

Due to these mammoth changes, supporting mental health and wellbeing for students has risen to the top priority at Khalsa. From time to time adequate steps have been taken in this direction in the form of webinars on life skills, career guidance and webinars for teachers and parents.

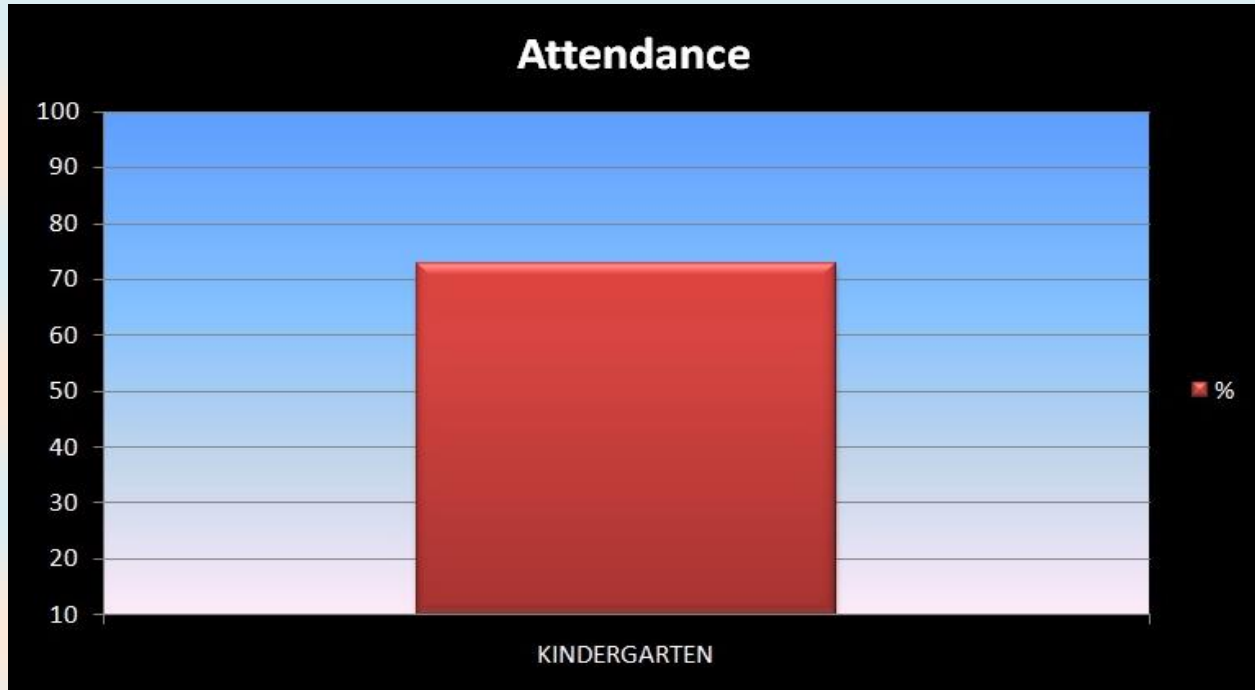

Maintaining communications on essential services such as arrangements for teaching and learning, changes to assessments, is all part of supporting student wellbeing which need to be "clear, accessible and timely". School App has been introduced to maximise the opportunities for communication and collaboration.

One possible silver lining to emerge from this situation could be that a new relationship with technology could lead to some positive outcomes.

ATTENDANCE

Attendance graph for the month of July is shown below:

No matter how hard the circumstances of the previous month were, the rains of July added sparkle to the atmosphere. The Kindergarten Section of KMSSS decided to design activities of July keeping space with the rhythm of the drizzle outside knowing very well that every seed planted during this month would germinate and flourish. Likewise every effort of the children would blossom and entice each other, influencing and inspiring tender minds.

Vanmahotsav is celebrated in the first week of July to spread awareness about planting trees. This event is celebrated in our KMSSS with much exuberance. Both the Management and the staff come together to plant saplings setting an example thus encouraging students to do the same. Students of Nursery, KG and UKG planted trees creating awareness to keep the surrounding green. The aim of this event was to inspire young minds about the importance of growing trees and saving forests.

RathYatra was celebrated on July 12, the biggest Hindu festival that took place at the famous Jagannatha temple in Puri, Odisha, India. Keeping the pandemic situation in view, safety measures were taken and restrictions were imposed.

The three siblings Lord Jagannatha, Lord Balabhadra and Devi Subhadra were carried on chariots terming this event to be popularly known as the **Chariot festival**. In order to teach the students and make them aware about the rich cultural heritage of India, the students of Khalsa Model Senior Secondary School prepared a speech promoting unity, plurality and brotherhood among mankind to celebrate this festival.

Innovative way to develop number concept.

English Skit presentation by UKG A and recitation performed by sec B, C, D and E were appreciated by all.

Virtual Party: Theme Fruit Salad.

Life is not about making others happy,
Life is about sharing your happiness with others.

National Ice Cream Day falls on the third Sunday of every July. Hence all flavours and varieties of Ice Cream made by children was a feast for the eyes, reminding us,

Happy or Sad

Ice Cream makes us all mad

Ask for another one as soon as it melts

Until all flavours are felt!!

Competitions and events like Drawing and Painting help children to express themselves explicitly. This is because "Drawing is not what one sees but what one can make others see".
