E-Bulletin for the month of September & October, 2021

KHALSA MODEL SENIOR SECONDARY SCHOOL (KINDERGARTEN SECTION)

Embracing New Normal

Life will not be the same again after the Covid-19 pandemic. We are all anticipating a fresh beginning. The start of a post-COVID future in which everything will change, and we will need to adjust our behaviour accordingly. Everything will change our values, our lives, our houses, our etiquette and manner of social contact, our viewpoint, and societal outlook. We are inclined to speculate and are curious about what the future holds for us, but we can never be sure since the future is unpredictable. Here I want to state that there is always a light at the end of the tunnel and that "this too will pass." I think that regardless of how difficult it seems right now, we will make it through together.

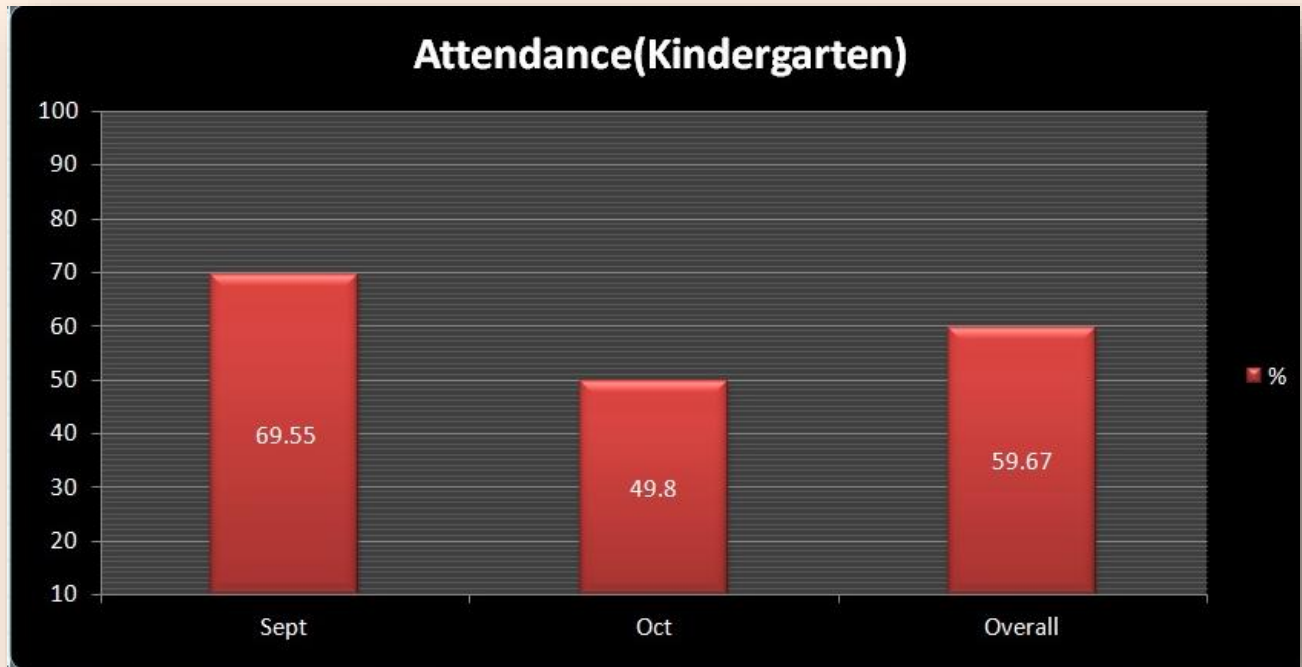

When it comes to a new normal in education, this means more effort from students and more patience from teachers...and vice versa. For the wellbeing and health of everyone, parents need to be vigilant about preparing their kids and teens, and helping to support the teachers, who will be doing their best to keep kids safe while they're in their care.

It is safe to say that, when schools reopen, what has been learned from this experience should be used to effect positive change in the approach to improve lives.

ATTENDANCE

Attendance graph for the month of September and October is shown below:

The Blue sky, white clouds and *kashful* — the harbinger of autumn and the festive season — complete the setting. It's time for Sharat (autumn). Our children are not familiar with what autumn means in Bengal. This is an effort to celebrate the advent of the fruitful season. The KMSSS team celebrated September - October through activities involving children's overwhelming participation.

Teacher's Day Celebration:

From giving us a purpose to set us up as successful citizens of the world, teachers inspire us in a drive to do well and succeed in life and to recognise the hard work of our mentors and gurus. Teachers' Day or Shikshak Divas is celebrated in India with great pomp and show.

In India, it is marked on the birthday of Dr Sarvapalli Radhakrishnan who was the first Vice President of India (1952–1962) and also a highly-respected teacher, philosopher and prolific statesman. Dr Radhakrishnan went on to become the second President of India (1962-1967) and thought that “teachers should be the best minds in the country.”

Hence the students of the Kindergarten Sections involved themselves in *Card making* and participated in musical events - *preparing songs, dance and recitation* to win over the hearts of their teachers. Their smiles mingled to create a cheerful atmosphere.

Go as you like or Fancy dress competition, an activity to transform you into a world of your fantasy where one gets a chance to dress up according to one's favourite character bringing in much joy and colour to the environment.

A virtual *Go as you like Competition* was organised for both the parents and the students where various coloured costumes and laughter blended to create a delightful moment.

Handwriting Competition for the juniors is an important event as it is considered to be an essential skill that helps children to develop reading and spelling skills.

Creative Corner

Students were involved to develop their creative skills while making *Paper fans, Drawing Durga idols, Dholaks with paper cups, Nests for birds, making cards*, to transform the way students acquire skills to encourage them to learn new things and grow up as good communicators. These creative skills were introduced among children to help them in learning with fun, enhance their freedom of expression, instigate their emotional development and reduce stress and anxiety.
