E-BULLETIN FOR THE MONTH OF MAY-JUNE 2023

From the desk of our Respected Principal Ma'am ...

DIGITALWELLBEING

Technology has become an integral part of our lives but we need to learn how to use it safely and responsibly. The importance of digital wellness/wellbeing becomes very crucial in present times. Digital wellness is to enable users to be more productive and engage in activities that promote holistic growth using technology to attain healthy and active lifestyles.

Today's students are considered digital natives, but that doesn't mean they instinctively understand the concept of healthy technology use. Although young children pick up digital skills quickly, they still need guidance on how to use technology in emotionally and mentally healthy ways.

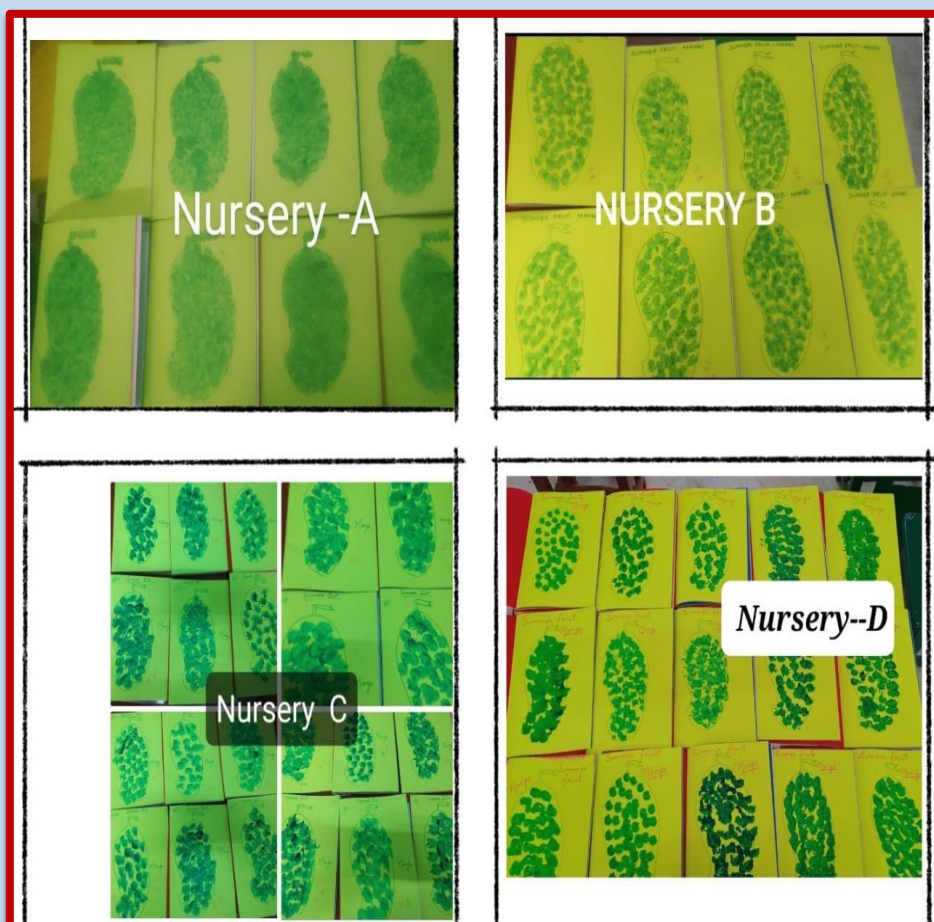

Teachers at KMSSS are ensuring that the students are engaged appropriately in a lot of activities offline and this e bulletin gives you a glimpse of it.

Hope is the key to surviving this transition. We need to remain positive and remember that students will come out of this with newfound skills, empathy, and resilience.

-Dr. Gurmeet Kaur Arjani
