#### **Strive for Excellence**

**Excellence is not a skill, it's an attitude!**

**Strive for excellence, not perfection. When we strive for excellence, we feel satisfied with a job well done. We learn from our mistakes and don't let them define us. And when we strive for excellence, we aim high, but we keep our lives in balance. Striving for excellence is trying to do your best.**

**In your role as a student, it is important that you do your best and produce excellent work. This will increase your confidence and esteem, as well as result in good grades and other benefits. It is the result of high intention, sincere effort, intelligent direction, skillful execution and the vision to see obstacles as opportunities.**

**We at Khalsa encourage the growth and development of all students in the life of the school and community, both as students and future citizens.**

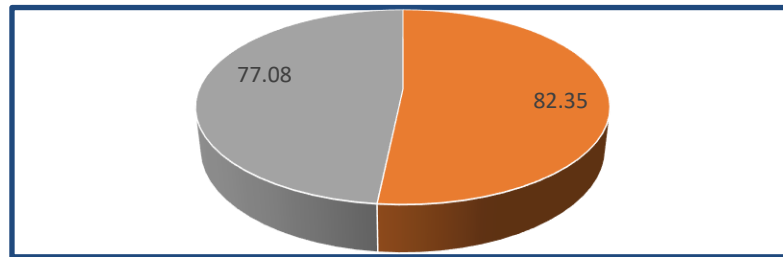

**-Dr. Gurmeet Kaur Arjani**
