## KHALSA MODEL SENIOR SECONDARY SCHOOL

### E-BULLETIN (SENIOR SECTION)

**MAY & JUNE, 2024**

From the Desk of our Respected Principal Ma'am,

#### Sustainable Future

In today's environmental climate changes, society needs a sustainable focus more than ever before. It's essential to raise the next generation into self-sufficient, eco-conscious world citizens who understand the immediacy of environmental responsibility. Schools play a vital role in preparing students to meet the sustainability challenges of the future. It is essential to raise the next generation into self-sufficient, eco-conscious world citizens who understand the immediacy of environmental responsibility.

At Khalsa, various ways are adopted such as eco club, science curriculum through which young minds are taught about sustainability, climate change, green energy, and the green economy. Inculcating sustainability in their lifestyles at school level will help them become responsible global citizens and continue to pass it down to future generations.

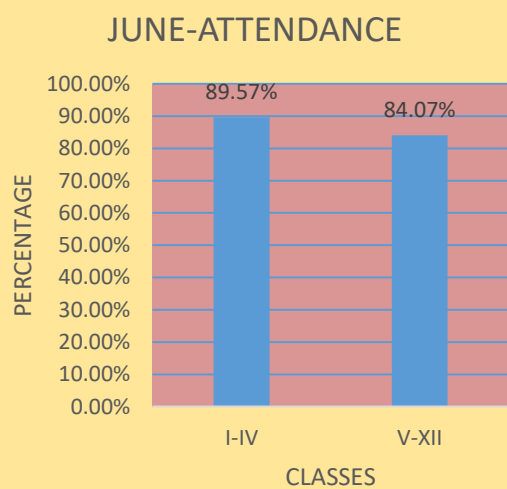

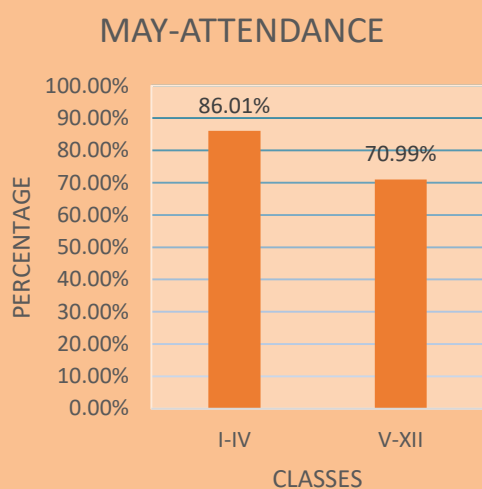

Remember, the seeds we sow today will shape the forests of our future. Let us make sure that students become the seeds of sustainability, resilience, and a shared love for our planet. Together, we can cultivate a world where education and ecology go hand-in-hand, blooming into a vibrant legacy for generations to come.

-Dr. Gurmeet Kaur Arjani

## LIFE SKILL ACTIVITY

**Aptitude is a special ability required to study or do a job. It indicates the probability of performing well in a particular area of study or occupation and also indicate the extent to which a person would derive benefit by training in a particular vocational area. Student's interest, personal qualities, educational and occupational information/ requirements also play a crucial role in career planning. A student's strength and limitations also help teachers and parents to extend support. For this purpose an Aptitude test camp was held in our school auditorium on 4/5/24 and 11/5/24 for the students of class X by using Tamanna, a test developed by CBSE which was facilitated by class XII Psychology students. The spontaneous response and participation of the students made the camp successful.**
